Chapter

I have nothing to lose. Not much else can be inflicted upon me. I'll do whatever it takes to #StopPsychiatry because #NobodyDeservesTorture

The rationale for misdiagnosis is "insurance companies will have to be told they're paying for something", and the insurance fraud is ignored by authorities. Anybody can be misdiagnosed so drugs get pushed, the vast majority of them are never violent, people labeled "mentally ill" are more likely to be victims of violence than perpetrators; and the torture inflicted upon them is encouraged by the authorities and the press.

Many psychiatrists told me I would "never amount to anything" because they're ashamed of themselves, so they project their insecurities upon others, and they ruin lives by misdiagnosing whomever they can; as expected from bullies.

I finally tapered off of the pharmaceuticals that kept making me sicker and sicker. The pushers are unwilling to lose even one customer. Every time they refused to taper the drugs, I was yet again traumatized by involuntary admission due to withdrawal symptoms. Post Traumatic Stress Disorder was misdiagnosed because psychiatry caused most of the trauma.

I finally was diagnosed with PTSD. I acquired my medicinal herb license in 2017. This was a major accomplishment. The pushers don't have any legal justification to accuse me of "abusing" said herb when it's prescribed. It's medical necessity. Years after relegalization of medicinal cannabis in 2012, nobody removed unqualified doctors and others who think the first medical necessity somehow "causes" every problem that exists and then some.

The drug pushers were wrong, all of their claims are backwards. The first medical necessity motivates its users, improves concentration, and prevents paranoia, anxiety, and depression because it's relaxing; and saves lives.

Medicinal cannabis clears my head so I focus. Dr. Jeffrey Shelton claimed otherwise while pushing drugs to impair concentration and cause depression and anxiety. Dr. Micheal Edward Balkunas of New Britain General Hospital caused damage that persisted since 2005.

Before 2005, nobody denied that I was a "gifted and talented" savant on the highest functioning end of the autism spectrum. In 2005, Dr. Micheal Balkunas falsified medical records. From 2005 to 2015, I was falsely accused of "paranoia, delusions, psychotic tendencies, lack of insight, and polysubstance abuse" because that's how pharmaceuticals are pushed.

Community Mental Health Affiliates convinced a Probate Judge to appoint a Conservator of Person and Estate, Attorney Katrina Camera. The idea to inflict this upon me was from Dr. John A. Nazarian. This meant that I got trapped in the wrong

area because I couldn't move out without approval. I was discharged from CMHA to Continuum of Care in 2015.

When I was harassed and stalked by Mike Inigo, the staff at my house stayed in the office to not witness him throw out my belongings, and I wasn't reimbursed. They presumed they could get an easy paycheck. The bully pulled down his pants and indecently exposed himself and got away with it. He was eventually removed from the house.

Survivor's guilt continues and it's not easy to sleep. Psychiatric APRN Susanne Wargo pushes Xanax without concern about brain damage or deadly withdrawal symptoms. I had a seizure when I was misplaced the pills and the junky staff at Bristol Hospital claimed the cause of the seizure was "undetermined" and they kept me contained, then lied under oath knowing their perjury was all it takes to persuade the Probate Judge. The junky staff say, "do as we say, not as we do" as they abuse narcotics.

The "special education" meant being forcibly drugged and thrown in detention for being forced to sleep in class. I excelled in school until I was forcibly drugged in 5th grade at the Wheeler Clinic. I was kicked out of public school for being an easy target for bullies. I was forced to sleep through nearly every class from 5th grade until graduation. That was traumatic, apparently.

Classism and racism caused the phony "drug war" targeting indigent communities. This isn't a specifically American problem, authentic medical necessity had already been banned throughout Europe before the United States.

Harry J. Anslinger fooled lawmakers who had no idea they criminalized a medicinal herb that saved their lives. By using an obscure term spelled with a J instead of an H, Anslinger made the first medical necessity seem foreign. He targeted immigrants and jazz and swing musicians by claiming they were "insane on marijuana that makes them think they're as good as white men" despite that people of all walks of life rely on the first medical necessity.

The poor are targeted and considered a threat to the wealthy, hence the phony "war on drugs" is a war on the poor.

Pro-vaccine propagandists either don't know or don't care that pharmaceutical companies manufacture vaccines and they can't be "one size fits all", they're like Russian roulette, different people react differently to vaccines; and the results are terrible. Autoimmune diseases are on the rise because of vaccines.

The populace is systematically poisoned. That's how pharmaceutical companies sell their drugs to sell more drugs. Vaccines cause customers. The vaccinated vast majority gets sicker and sicker and sicker. Vaccines can cause seizures, encephalitis, and worse.

Death is listed as a "side effect" of vaccines. When babies die after vaccination, the euphemism "Sudden Infant Death Syndrome" is used as if the cause of death were

unknown. The pro-vaccine propagandists say they'd "rather be autistic than dead" as if they've never heard of other possibilities besides autism and death.

The warning label on toothpaste says to call a Poison Control Center if its swallowed, yet the populace doesn't question why the same poison is in the water. They're indoctrinated and domesticated. Sodium flouride has damaged their brains. Most pro-vaccine propagandists don't know about with autism, they think they're experts on my condition just because they watch TV and movies.

Deaths from viruses already declined by 90 percent before vaccines. These deaths were declining for many decades. Better sanitation, hygiene and nutrition helped. There's also treatment for these infections. The symptoms could be reduced. This wasn't always widely understood, hence the difference between decades ago and centuries ago. Typhoid fever declined without widespread vaccination and scarler fever declined without any vaccine.

Anybody who already survived measles won't catch the same virus again due to lifelong immunity. Measles is a temporary infection that's rarely fatal. Surviving ailments is a rite of passage during childhood.

The symptoms of mercury poisoning are also the symptoms of autism. When vaccination increases, autism increases. Even after mercury was removed from most vaccines, they still cause autism for other reasons.

The pro-vaccine propagandists don't care that injection of mercury is inherently more harmful than ingestion thereof, such as in fish oil supplements.

Infant mortality increases along with vaccination. The US has the highest infant mortality rate because it has the most vaccines.

The media suddely stopped talking about measles because now the fearmongering is over coronavirus. There's new mass hysteria, just like that.

<https://childhealthsafety.wordpress.com/graphs/>

I'm expected to fend for myself because I'm in the minority on the highest functioning end of the autism spectrum. I don't appreciate the media diminishing my plight.

Music and herb saved my life.

My most widely disseminated song is Ingenuity, a psychedelic conscious hip hop song :

<https://youtu.be/GoLjmY48C84>

The night after I attended my first Temezcal, a Mexican sweatlodge, my song Ingenuity finally reached 1000 views within about 7 months.

I was invited by _____, a certified level 3 Reiki practitioner and a 3rd generation Oracle.

Intuition definitely exists. Not being 100 percent accurate doesn't mean not having the ability. The skeptic extremists offer rewards to prove them wrong, then boast that they never intended to deliver such an award. They're charlatans and proud of it. Blind rejection isn't any more plausible than blind acceptance. The tests are rigged! Snobs ask "how could a psychic have bad luck?" as if it were that simple. Yeah, right!

I saw the 2002 tsunami of South East Asia in a dream, but only a vague reference. I interpreted it during and after its fulfillment, not before

Astronomy and astrology are interchangeable. Nobody claimed otherwise until recently. The original science is incorrectly called "pseudoscience" and even "antiscience", an insult to everyone's ancestors.

I have an app to train for Extra Sensory Perception, and I'm on the global leaderboard. Any score of 11 or higher can be submitted. I've gotten 14 out of 25 correct. Anything more than 5 correct can't be attributed to chance alone. I usually

guessed the colors on cards rather than symbols or numbers or et cetera. Out of 25 cards, there were 5 colors.

I frequently see certain numbers on clocks. 11:11, 1:11, 2:22, 3:33, 4:44, 5:55. This isn't coincidental. I see them more frequently than not. This has especially been the case since the Age of Aquarius dawned in the spring of 2017.

Lyrics to Call for Liberation :

So many protest.

Everyone is oppressed.

Nobody has freedom at anyone else's expense.
I must insist that authority should cease to exist.
I'm an anarcho-primitivist.
We must resist Empire and its many clients.
They're all tyrants
My Zerzan-esque verses will burn down churches to murder (neo)conservatives for their disservice.
They deserve it.
Proudhon correctly said, Property is Theft, and influenced Bakunin.
We need more than a revolution.
Progress is a myth.
Technology inflicts pollution upon Earth as persecution, hence what Edward Abbey said was the industrial way of death.
Civilization is self-destructive and meant to oppress.
When ignoring the facts, some have resorted to a personal attack.
The accusation of hypocrisy is obviously an ad hominem (among the more common and most easily refutable and futile of any logical fallacy) to blame us for using technology while in civilization's clutches, as if blaming a cripple for using crutches.
Anarcho-primitivism is what I believe in. There can't be freedom where there is authority, hierarchy, and other crimes of the civilized.
I support nomadic forager tribes.

Authority and hierarchy have divided us, and lied to us.
We had been told that our rights were recognized and wouldn't be denied.
Empire has tried to deprive us of our skills that we needed to survive.
The low lives who hide behind a badge fabricate crimes to meet their quotas.
They patrol us and enforce their war upon us.
Empire and its apartheid has to end, and we need not let it slide ever again.
We can easily resist them, and we will win.
We outnumber and outwit the oppressors.
We can do much more than merely demonstrate against them.
They intend to arrest anyone who protests them, but we don't have to let them.
If we had all been killed, then there'd be nobody to oppress when there's none of us left.
I told them I won't tolerate the laws and hate they have caused for so many years.
I made myself clear
They didn't hear because they had lard in their ears.
Yet we are precisely what their Empire should fear.
Much like the Irish volunteers, we're undefeated.
Those who profit from apartheid have repeated their lies, but that doesn't make them true.
We must liberate the Earth, as that's what we are obligated to do.

The lyrics to Defy Dystopia

civilized society is entirely for shills
and psychiatry kills
by prescribing pills
to cause depression and anxiety, thus
depriving its targets of survival skills
(x2)

the populace is systematically poisoned by a pharmaceutical industry that brutally
despises liberty
as the poison pushers avoid all liability,
barely even discreetly,
quarantines are caused by corporate greed to sell vaccines
after sanitation had already decreased deaths from infectious diseases
by 90 percent before the vaccines shed the germs to spread,
hence the fear mongering is measly,
the vaccinated majority are brutally duped
given shots like they forgot surviving chickenpox,
poison pushers walk all over us until we make them run away from us thus before
us because they exploit us.
They contaminate the water and pollute the air
and hate us because we dare to care.

Newscasters who spew disaster don't inform those who view that a fashionable
discrimination,
mentalism or sanism, a variation of ableism or disabelism
is endorsed as preferable
while everybody who's stigmatized and ostracized
is considered expendable
and detestable
for being traumatized and almost universally despised
many are forcibly drugged and electroshocked to be vegetables
it's disturbing to describe
such reprehensible
atrocities enforced by
Probate Judges
who hold their grudges
while the reporters don't want to realize they stigmatize those who would probably
save their lives.
Fear sells. I'm not buying.
Measles isn't a death sentence.
Censorship of a documentary

Is barely even trying.
The fear mongering is blatant denying and lying.
Measles isn't bubonic plague.
Such feeble claims aren't even as vague rather than opposite the truth.
The populace is too afraid to comprehend proof.
Distress when the press will degrade
a minority who couldn't weaken any herd immunity,
That's inherently absurd, brutally undeterred by scrutiny.
The vaccinated majority is told lie after lie.
The herd immunity rationale doesn't apply
When pretending viruses could be spread by those who haven't caught them or that
new strains are to blame.
That's an inherently bogus claim.
Forced vaccination with bans and badges are inhumane.
Mandatory vaccination is oppressive because it's coercive, thus indefensible.
There could be internment or worse for those who don't get vaccinated on schedule.
The autists are stigmatized by lies and portrayed as expendable.
Autism doesn't cause rampages,
The savant syndrome misdiagnosed while geniuses are locked in cages.
The reprehensible sadistic staff will Drug Shock Misdiagnose
To push their drugs to those who thought they were immunized.
Disease is exacerbated.
Only a minority are unvaccinated.
The harm caused by measles is exaggerated.
The idea of a herd immunity weakened by a minority is outrageous,
Like bogus bans and badges on those who didn't catch anything and therefore, are
apparently not contagious.
Doped up staff are sociopaths who laugh as they steal opiates from the
detoxification wards they're working at, forcing prisoners into rehabilitation.
This invasion is futile, it's desperation when the pushers resort to slander phrenia.
Therapy can't be forced.
Pushers label anybody
'mentally ill' without evidence
then pretend they have grounds to torture
while claiming to 'medicate'
those whom they denigrate to decimate
it's never therapeutic when against their will
For freedom from psychiatry,
force and fraud,
I easily see through a façade

civilized society is entirely for shills
and psychiatry kills
by prescribing pills

to cause depression and anxiety, thus
depriving its targets of survival skills

New Years' Eve

I went the whole day without eating just to prove I can fast, since it might be necessary in some cases.

I was assaulted at Zen Bar in Plainville. I had nowhere else to go. I almost had a ride to a better event. The GPS got us lost. I wasn't expecting much from Zen Bar. Three

bouncers told me to leave, and one of them even pushed me as I was already on my way out.

Posted this online :

#Psychiatry is reprehensible.

Years after #medicinal herb was relegalized in #Connecticut, the state STILL won't go after irrational psychiatrists who #torture people over medical necessity. I'm not afraid of naming names online. The same doctors who torture people by forcing drugs upon them also say, "don't do drugs".

Why not make an example of them?

Here's a list of drug pushing bigots who forcibly drug their targets and say "don't do drugs":

Micheal Edward Balkunas

Christopher L. Yergen

Jeffrey T. Shelton

Enrique J. Tello

Susanne Wargo

John A. Nazarian

Richard J. Miller

Wayne Cotton

NOBODY deserves torture.

Every time the drug pushers refuse to taper the drugs, their targets are forced into hospitals over withdrawal symptoms, thus Post Traumatic Stress Disorder is exacerbated. Not everybody can afford a medicinal cannabis license. PTSD is usually misdiagnosed as "bipolar disorder, schizo affective disorder, and schizophrenia"; the go to misdiagnosis.

The burden of proof is on the doctors, and Probate Judges are unlikely to request evidence since judges are immune to lawsuits.

Medicinal cannabis still prevents paranoia because it's still relaxing, regardless of the placebo effect. The myth of "amotivational syndrome" is backwards, the medical necessity motivates its users. The myth of "impaired concentration" is also backwards.

The CVH abuse scandal was caught on tape. One nutcase is going to jail for what they ALL do

The only lunatics are the staff, not the prisoners. The crazy staff will label anybody else "mentally ill" to shift the blame away from themselves.

Medical necessity isn't "abuse", nobody went "insane" from a relaxing medicinal herb, and repeating a lie won't make it true.

Still no relief. I've been trapped in the wrong area since October 2017. No break from stress. My money gets wasted on rent for solitary confinement. Nobody told me what I'm falsely accused of. I was forced to sign the lease and nobody warned me I would never be allowed to relax. Due to a Probate Judge illegally appointing a Conservator of Person and Estate, a stranger forces me to suffer anxiety attacks and wastes my money on rent. My own "family" refuses to help, they say "look for a place and move" AFTER being told there's a Conservator of Person and Estate! Still not one moment of peace.

Already wrote songs that never manifested and this lack of fruition doesn't help to motivate me. I don't have a band and nobody even jams so I stopped writing. I doubt anybody will change my mind anytime soon.

Society doesn't value compassion. Look what happened to me! Nobody even has the decency to provide a relaxing setting. Still no relief. I need a break from the stress. I'm trapped in an improper setting and that's my \$ paying the rent. I never agreed to reside in this house. I need a better setting BEFORE Probate Court on Feb 5 at 3 p.m. I'd have to be calm for the hearing.

Zen Bar has got to go. The bigots deserve much worse than losing customers. Mistreating musicians was bad for business already, and now these snobs assaulted a "disabled" person. I was already leaving BEFORE being PUSHED. That ought to be the last straw. Their rationale was "people were complaining" as if those people couldn't just LOOK THE OTHER WAY. I had paid the cover charge AND spent \$. I had nothing to do on New Years' Eve, so I resorted to Zen Bar. Now they're publicly called out. It's known that the bullies at Zen Bar assaulted a "disabled" person.

If double standards are better than a lack of standards, that wouldn't be good news for Facebook. There aren't any "standards" on Facebook. Nothing was done about the cyber harassment. Ian Coté accused me of being "creepy" because I'm an autistic savant, and Rachel Kuhr threatened me. My reports were ignored. If I had a choice, I wouldn't use Facebook.

another \$30 down the drain because I had to rot on a couch doing nothing. \$70 a week down the drain. medical necessity gets less and less effective due to improper setting. \$325 to renew the license and it's all going to waste. I'd be much sicker without it. Still not allowed a better setting. Not in many years. Stopped writing because the songs never happen so it's useless.

If I could choose where to reside, I would've done so. I'm FORCED to reside in the WRONG AREA because I'm a POLITICAL PRISONER. Every weekend, I reach out for relief without getting any reply because nobody comprehends that a Conservator of Person and Estate FORCES me to rot in an UNBEARABLE area, subjected to constant anxiety attacks. It's like paying rent for solitary confinement.

If I attended an event alone, I would be an east target (because of my condition). I won't risk it. This is unbelievable. If I could get a break from stress, I could get back on my feet.

Yet another weekend stuck on a couch doing nothing, then I have to go back to the house I was traumatized in. I try to get a hold of my 0friends and it never happens since FB messenger is broken. I'm forced to reside in the WRONG AREA and I just need a break from stress. I don't drive and if I attend events by myself, I'd get assaulted for being an easy target. I just need to enjoy something so I can recover and get back on my feet.

11:36 a.m.

Sent messages to the few friends I still have, including _____, who was sent this : turns out I get sent back today without relief. I haven't enjoyed anything in a VERY long time. I'd get jumped if I attended events by myself and I'm surrounded by jerks at my house. It's like solitary confinement and charged rent for it. Almost nobody believed me. My own "family" betrayed me. Now I get sent back to that cage today. Not seeing any light at the end of the tunnel.

not easy being unfree. I'm forced to reside in the wrong area, isolated from all support, trapped in the same house I was traumatized in. I get snotty replies like "rent is standard" despite that I never agreed to reside in an improper setting. My own "family" betrayed me. It's always "look for a place and move" after I explained there's a Conservator of Person and Estate. I also don't drive. All of my health problems are stress related and I just need a break. I only have a few friends left in real life. This is what I get for being compassionate, the exact opposite is what I get in return. This is what society does to empaths.

8:20 p.m.
I took a risk when I took a stand and I don't regret it. I did the best I could and now I'm unfree, denied better housing, isolated from all support, deprived of any relief; I'm a political prisoner. I sacrificed myself. Stress is killing me here. This is because I had enough compassion to protest. I lost my band, I lost everything. What I did wasn't wrong and I don't regret any of it.

3:42 p.m.

Sent this to _____ :

you sending me the healing kept me alive this (whole) time. Thanks. I dunno about attending events by myself it's too risky. With my defficiency of air, I should socialize more. It doesn't happen when I only have a fee days a time in Bristol. I'm surrounded by jerks and I've been without a break this whole time. This years' winter blues is worse than usual and I don't react well to Valentine's Day. I feel like I'm about to die from stress. I don't even have an outlet to vent when in a writers' block. It's unbearable that I can't even sublimate. Being trapped here will eventually drive me off the deep end. To my credit, I handled this well at first. I'd gather the actual reason almost nobody cares about me is because I'm poor. Authorities don't care that "discrimination is against the law", it's unenforced. Employers refuse to hire me. SSI is my only \$ and nobody's impressed. I literally have very few friends in real life. When I can smoke herb again, I'd rather share it. It's not the same smoking by myself. This setting also is bogus. I've got worse than the usual fear of aging, I wasn't allowed to enjoy my youth, I was locked in cages for most of my life. I'm trying to get some relief while I still can and it hasn't worked yet. Not too late, just close to it. If I could enjoy anything even once more, that'd be better than nothing.

6:09 p.m.

I don't react well to Valentine's Day. Not cool to "rub it in" that not everybody has anything to celebrate. If I could skip it and go directly to St. Patrick's Day, I probably would.

In real life, #savant syndrome is nothing like how it's portrayed on TV or in movies. I'm fed up with being an easy target Appearing in public alone is terrifying. I never harmed anybody and I'm fed up being labeled a "retard" and a "creep" and told "we don't like your kind around here".

I'm still trapped in the wrong area. This problem would've been solved if enough people had a conscience. I needed a break from the stress so I could recover. Instead, I was harassed in my house because nobody had the decency to bring me to an event so I wouldn't either remain isolated or be easily targeted for attending an event alone. That's my \$ paying rent for this shithole and it's not easy to plan for better housing when still in shock from trauma. My mood is slightly improving due to the weather, but I'm still infuriated by the lack of compassion. I've been betrayed.

it's not like nobody even knows anybody with a car. Yet another weekend down the drain. I get bitched at just for venting and I don't believe nobody's able to help. I never claimed to be the only person with problems. This problem can be solved very easily, yet nobody else has compassion. Why not just bring me to a better setting than this? WtF???? I'm still waiting to hear after voicing my concerns about violations by a 3rd shifter, Baja, who causes friction.

Baja sleeps on the job, then gives me a hard time for knocking on the door to the office because she had to wake up. Her inappropriate remarks about my family were the last straw. It's alarming enough that she gets paid to sleep. Baja doesn't know me or my family. When my "mother" denied me transportation to Bristol, Baja said, "I don't blame her", so I'll have to report that.

called out Dr. Jeffrey Shelton on Google reviews and elsewhere :

Medicinal cannabis saved my life. When Dr. Shelton prescribed pharmaceuticals that caused depression, I smoked herb to improve my mood. When he prescribed pharmaceuticals that impaired concentration, I smoked herb to concentrate. Medical necessity isn't "abuse". The myth of "amotivational syndrome" is backwards. The medical necessity motivates its users. To this day, a prehistoric medicinal herb still prevents paranoia because it's still relaxing. Dr. Shelton will misdiagnose anybody to shift the blame away from himself, and he prefers to prey upon easy targets. His targets are mellow, docile, and passive. Kindness is mistaken for weakness. Dr. Shelton is a bully.

Every time prescribers refused to taper the pharmaceuticals, I was traumatized by involuntary admission to hospitals because of withdrawal symptoms. I finally tapered them myself, and I'm rising above the brutality inflicted upon me. I have a medicinal cannabis license now.

Dr. Shelton is guilty of insurance fraud and worse. The rationale for misdiagnosis is "insurance companies will have to be told they're paying for something". The Department of Public Health has been told about Dr. Shelton and he will hopefully be brought to justice very soon.

Withdrawing from tobacco again. There's no "mind over matter", tobacco is addictive. The withdrawal symptoms worsen until they taper or until use is resumed. When they taper, that doesn't guarantee the addiction won't resurface. "Willpower" makes no difference. Tobacco addicts don't have a choice.

The pro-vaxx #media denigrates everybody with #autism. We're portrayed as "monsters who shoot children". The #pharmaceutical industry OWNS the media. The pro-vaxxers are taught to hate and fear everybody with autism. They obviously don't want to be like us, so they deny that #vaccines are the main cause of autism. They're terrified of us for the same reason they're afraid of a temporary ailment that causes a fever and a rash for less than 2 weeks and then never resurfaces. #Measles is rarely fatal, rarely severe, and survivors never catch the same #virus again, they have lifelong #immunity because they've already survived measles, and they're less susceptible to #diseases such as Parkinson's #disease and #cancer because they've been through the measles, thus they're protected; hence I don't give any credence to the myth that a temporary ailment could possibly be worse than being hated and feared by the pro-vaxx populace. Deaths from viruses already

declined by 90 percent BEFORE vaccines. #Sanitation #hygiene, and #nutrition saved many lives.

Posted this online because I want it known what's been inflicted upon me :

I don't remember enjoying anything. I only remember trauma. I was already forcibly isolated before anybody even mentioned coronavirus. I just needed a ride out of the cage. I recieved nothing but snotty replies like "rent is standard" and "look for a place and move" and "talk to your case manager". My money pays rent for solitary confinement because a lawyer has my money. The Probate Court appointed a stranger to ruin my life at the behest of white supremacists who think jazz musicians and Mexicans are "out to get" them. Community Mental Health Affiliates, a hate group, sent bigots to lie under oath. The judge encouraged perjury. Medicinal herb saved my life until I was yet again traumatized in this house. CMHA discharged me to Continuum of Care in 2015. Since October of 2017, I've been trapped in the wrong area. I was forced to share a house with a bully who threw out my belongings, stalked me by waiting for me at a park and even pulled down to his pants to indecently expose himself. Medicinal herb gets less and less effective while I rot in the cage. There's no enjoying anything here.

I finally have my last \$30 until April, so I don't know what I'll do next week

The other day, I did the cartomancy again and all 3 aces now. I suspect it's an inherited curse on Mayflower descendantds I unfortunahately am one; hence my surname, Tucker is apparently English . I don't know much about that side of the family's history and what I do know is negative. At least I verified that I wasn't wrong. The medical conditions aside, there's also at least one curse. It causes undeserved negative reputation, bad luck, constant headaches, loneliness, abject poverty regardless of either hard work and / or talent, et cetera. Yeah, sounds like a curse or maybe more than one. It might be more than the Mayflower descendant's curse. Might also be karmic debt I tried hypnotherapy to remember past lives and I couldn't. There's blockages when I try to meditate. Every time I tried, it was prevented.

many deaths were misattributed to #coronavirus when elderly people with other health problems also had coronavirus. They didn't die from coronavirus, they died with coronavirus. When #lawmakers #capitalize upon mass #hysteria to #mandate a coronavirus #vaccine, I'll remember they lied and many quickly recovered from said #virus without any vaccine. The #media's #fearmongering campaigns reoccur constantly. I don't believe the #hype. The actual death toll is much lower than portrayed.

sent this to Senator Chris Murphy :

why not address the autism epidemic? I'm autistic because of vaccines and I wouldn't wish this upon anyone. I'm expected to fend for myself because I'm on the highest functioning end of the autism spectrum. I'm fed up with being labeled a "retard" and a "creep" and told "we don't like your kind around here". Pro-vaxxers either think autism is "no big deal" because they watch TV and movies OR they think autism suddenly pertains to rampages because a few bigots said so on the news. Deaths from viruses already declined by 90 percent BEFORE vaccines. Sanitation, hygiene, and nutrition saved lives, unlike vaccines. One study was retracted by force and the pro-vaxxers think that proves that vaccines suddenly don't cause autism. Even after mercury was removed from many vaccines, they still contain other poisons that cause autism. The pro-vaxxers don't comprehend the difference between ingestion and injection, they say, "there's more mercury in fish oil than vaccines". They say they'd "rather be autistic than dead" like they've never heard of any other possibilities besides autism and death. Infant mortality increases along with vaccination, hence the highest infant mortality rate is that of the U.S.A.! Vaccines kill many babies. They can cause encephalitis, seizures, cancer, et cetera.

Vaccines are manufactured by pharmaceutical companies. They're incorrectly called "free" in some countries despite that they cost lives. The vaccinated vast majority keeps getting sicker.

Unlicensed psychologist and bully "Dr" Phil has no idea the first medical necessity will never "impair concentration" or "cause psychosis", that fraud would sing a different tune if he had difficulty concentrating. Medicinal cannabis remains the ONLY way I concentrate. Nobody gets "paranoid" from a relaxing medicinal herb that'll ALWAYS prevent "paranoia" because it'll ALWAYS be relaxing. The first medical necessity also treats traumatic brain injuries. The bully "Dr: Phil told someone with a TBI the myth that the first medical necessity somehow "causes brain damage". He coerces recovering alcoholics and drug addicts to relapse, either by giving them alcohol and Xanax or by telling them they're "still using" when they're not; they can't remain clean and sober without medicinal cannabis as a crutch to take the edge off of recovery. At least Jerry Springer ADMITS his show is garbage! "Dr" Phil exploits people by broadcasting their problems on television. It's all about ratings, money, and attention. Shock value increases ratings, hence the phony "Dr" Phil ruins lives to add more drama to his show.

The moment this fascist #lockdown ends, I'll determine whether or not I have any friends in real life. I doubt it. I get antagonized in the house I'm prevented from moving out of, and before the #lockdown2020; I simply needed a ride to a therapeutic setting. My most horrific fears are epitomized. I've been forcibly isolated for at least as long as I can remember.

6:52 p.m.

I was falsely labeled an "eco-fash" by some stranger on the internet who incorrectly presumed I "worship" Ted Kaczynski (sp?) LOL I'm against fascism and I barely ever mentioned Ted.

circa 10:00 p.m.
If enough people know about what I've been through, something will be done about, hence the media refuses to report it; inadvertantly verifying my opposition to the media.

One question for anybody who doesn't question a backwards narrative:
the #fearmongeringmedia cries wolf about viruses all the time, why would it be true this time? Better question: HOW would it be true this time? Even better question:
How COULD it be true this time?

Stress Disorder is amplified by the involuntary admissions due to withdrawal symptoms. Many lives were ruined by psychiatrists who don't allow properly tapering the drugs. They'll never know if they don't try.

I just called Continuum of Care's Clients Rights and Grievances Officer, Rhona, to report the escalating bullying.

circa 1:00 p.m.

The local #media is disrespectful to #trauma survivors such as myself. I get retraumatized multiple times daily because I'm easily targeted by bullies. Blocking me to censor me only proves that the media is immature at best. I get constantly antagonized in a house I'm prevented from moving out of. My own \$ pays the rent for this cage and I'd be deprived of my own \$ if I discharged myself, plus I have nowhere to go. I'm a hostage. Why not report this? I've given the local press MANY opportunities to prove that good #journalists exist. Instead, they censored me.

I'm considering a banishment curse because that might be the only way these bullies will stay away from me. The risk of backfire hardly counts since I have nothing to lose.

There used to be talk of criminalizing masks and now everybody's forced to wear them except the wealthy, the police, et cetera. Before the fascist #lockdown, I already said, "I'll craft a makeshift while I multitask" and I didn't mean excessively wearing a mask and suffocating.

Some crooked doctor got caught discontinuing Xanax cold turkey. That can be FATAL. Dr. Enrique Tello prescribes Xanax, causing DEADLY WITHDRAWAL SYMPTOMS, and he thinks the first medical necessity is "very bad for mental health" because of his archaic bigotry. It's NOT difficult to comprehend that a relaxing medicinal herb PREVENTS paranoia because it's RELAXING!
